## VanEck 10+ Year Australian Government Bond ETF

### Fund Description

XGOV invests in a portfolio of Australian dollar denominated Australian Government Bonds with maturity dates between 10 and 20 years with the aim of providing investment returns (before fees and costs) that closely track the returns of the Index.

An investment in the ETF carries risks associated with: bond markets generally, interest rate movements, issuer default, credit ratings, fund operations, liquidity and tracking an index. See the PDS for details.

The tables above show past performance of the ETF from 26 September 2023. Index performance shown prior to 11 September 2023 is simulated based on the current Index methodology. Results are calculated to the last business day of the month and assume immediate reinvestment of distributions. ETF results are net of management fees and costs, but before brokerage fees or bid/ask spreads incurred when investors buy/sell on the ASX. Returns for periods longer than one year are annualised. Past performance is not a reliable indicator of current or future performance which may be lower or higher.
