

VanEck MSCI International Value ETF

VLUE gives investors a diversified portfolio of 250 international developed market large- and mid-cap companies, with high value scores as calculated by MSCI at each rebalance. Our international value ETF aims to provide investment returns, before fees and other costs, that track the performance of the Index.

VLUE

Benefits

International companies exhibiting value characteristics

Access a portfolio of international companies that are selected for their high value score relative to sector peers as measured by MSCI based on: (i) price to book value; (ii) price to forward earnings; and (iii) enterprise value to cash flow from operations.

Long term focus, capturing value across the market cycle

The index is designed to capture a high level of exposure to value while minimising unintended and unwanted sector bets.

Diversified across countries, sectors and companies

Offering investors a portfolio of 250 companies across a range of geographies, sectors and economies.

Performance

	1 Month (%)	3 Months (%)	6 Months (%)	1 Year (%)	3 Year (% p.a.)	5 Year (% p.a.)	Since Inception (% p.a.)
Price return	2.44	6.90	8.74	10.27	5.56	--	8.01
Income return	0.00	0.00	0.00	4.50	3.37	--	2.83
Total return	2.44	6.90	8.74	14.77	8.93	--	10.84
VLUE index	2.48	6.98	8.85	14.93	9.06	7.70	11.01
MSCI World ex Australia Index	2.58	12.12	14.70	31.18	12.25	14.14	16.59

The table above shows past performance of the ETF from 8 March 2021. Index performance shown prior to 15 February 2021 ("Launch Date") is simulated based on the current Index methodology. Results are calculated to the last business day of the month and assume immediate reinvestment of distributions. ETF results are net of management fees and costs, but before brokerage fees or bid/ask spreads incurred when investors buy/sell on the ASX. Returns for periods longer than one year are annualised. Past performance is not a reliable indicator of current or future performance which may be lower or higher. The MSCI World ex Australia Index ("MSCI World ex Aus") is shown for comparison purposes as it is the widely recognised benchmark used to measure the performance of developed market large- and mid-cap companies, weighted by market capitalisation. VLUE's index measures the performance of 250 companies selected from MSCI World ex Aus based on MSCI value scores, weighted by market cap x value score at rebalance. Consequently VLUE's index has fewer companies and different country and industry allocations than MSCI World ex Aus.

Key risks

An investment in our international value ETF carries risks associated with: ASX trading time differences, financial markets generally, individual company management, industry sectors, foreign currency, country or sector concentration, political, regulatory and tax risks, fund operations, liquidity and tracking an index. See the VanEck MSCI International Value ETF PDS and TMD for more details.
