

VanEck

Australian Equal Weight ETF

MVW gives investors exposure to a diversified portfolio of Australian equities. The holdings in MVW are equally weighted. MVW aims to provide investment returns, before fees and other costs, that track the performance of the Index.

MVW

Benefits

Core Australian equity strategy

An award winning Australian equity strategy backed by significant research investing in the largest and most liquid Australian listed companies.

Diversification across companies and sectors

A portfolio which offers true diversification by equally weighting across companies and reducing sector concentration.

Outperformance potential

Equally weighting has been proven to produce long-term outperformance compared to a market capitalisation approach.

Performance

	1 Month (%)	3 Months (%)	1 Year (%)	3 Year (% p.a.)	5 Year (% p.a.)	10 Year (% p.a.)	Since Inception (% p.a.)

The table above shows past performance of the ETF from 4 March 2014. Index performance shown prior to 29 November 2013 is simulated based on the current Index methodology. Results are calculated to the last business day of the month and assume immediate reinvestment of distributions. ETF results are net of management fees and costs, but before brokerage fees or bid/ask spreads incurred when investors buy/sell on the ASX. Returns for periods longer than one year are annualised. Past performance is not a reliable indicator of current or future performance which may be lower or higher. The S&P/ASX 200 Index is shown for comparison purposes as it is the widely recognised benchmark used to measure the performance of the broad Australian equities market. It includes the 200 largest ASX-listed companies, weighted by market capitalisation. MVW's index measures the performance of the largest and most liquid ASX-listed companies, weighted equally at rebalance. MVW's index has fewer companies and different industry allocations than the S&P/ASX 200.

Key risks

An investment in our Australian equal weight ETF carries risks associated with: financial markets generally, individual company management, industry sectors, fund operations and tracking an index. See the VanEck Australian Equal Weight ETF PDS and TMD for more details.
