

Own all the banks with a single trade

Australian banks are among the most highly regarded in the world. The ‘Four Pillars’ (Commonwealth Bank, ANZ, Westpac and NAB) are ranked in the top 50 ‘most valuable banking brands’ in the world by The Brand/Finance Banking 500 and they are ranked in the top 50 ‘safest banks’ by Global Finance.

The Australian banking sector is also sizable. The Four Pillars represent approximately 30% of the Australian equity market by market capitalisation.

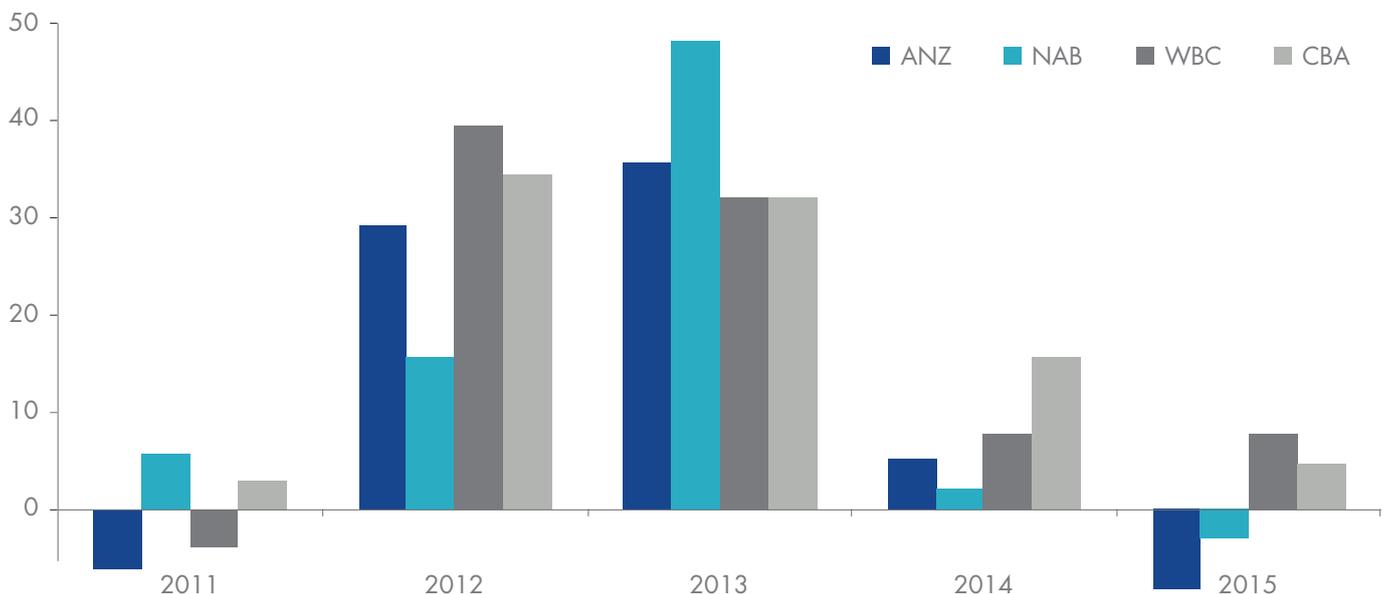

S&P/ASX 200 by market capitalisation

Which bank? It's challenging to pick which bank will perform the best.

Over the past five calendar years three of the ‘big four’ banks have each been the best performer at least once.

MVB is an ETF (exchange traded fund). An ETF is a managed fund that can be bought and sold on ASX (like shares). What this means is that via a single trade investors gain immediate exposure and diversification to seven banks.

- VanEck Vectors Australian Banks ETF (ASX code: MVB) is an investment in Australia's largest and most liquid banks in a single trade.
- MVB is the only fund of its kind in Australia.
- MVB delivers the growth and yield of Australia's banks by passing on all dividends and franking credits to investors.
- MVB is designed to be:
 - an easy way to achieve a diversified portfolio of Australian banks
 - simple to trade; and
 - cost effective.
